

Fabbian

*F50 ARMILLA - LOOKBOOK*

**Company overview.**

Established in 1961 in the Venetian countryside, Fabbian is one of the premier Italian lighting manufacturers operating in the modern design market, designing and manufacturing lighting fixtures for residential and commercial markets.

This history, combined with traditional Italian craftsmanship and the finest quality, keeps Fabbian a prominent brand that is internationally recognized in the architectural and design communities worldwide.

### Company overview.

The endless research on new materials, trends, and aesthetics has always been combined with market demands and new business opportunities.

From the very beginning to the design application, the product life cycle is strictly controlled to make sure that each light fixture meets the highest quality expectations and safety requirements.

These components give Fabbian products a vast and diversified array of inspirations and styles, which is also ensured by yearly prestigious collaborations with well-renowned and emerging designers.

**Company structure.**

Proudly headquartered in Castelminio di Resana, in the **Venetian Countryside**, the company has an international outreach.

From **Venice**, it manages directly the European region, while it distributes the products through agents or importers in the other macro-geographical areas (Greater China, Russia, South and East Asia, South America, GCC countries, Northern Africa).

**North America.**

With over 20 years in North America, Fabbian USA offices are located in the world's capital of design, **New York City**, just blocks from Time Square.

### Designers.

Fabbian has collaborated with some of the most prestigious designers throughout the world to create unique elements for your home and business.

**Trade Shows & Events.**

Fabbian takes part in the world's most relevant trade show dedicated to light, EUROLUCE, in Milan, every two years, with a massive booth to showcase new collections and best seller products. Other important dates in the Fabbian's calendar are Stockholm Furniture & Light Fair, WantedDesign Manhattan, and Sleep London.

**Armilla F50**, designed by Lorenzo Truant, is inspired by the first Renaissance armillary models depicting the motions of the stars and planets. At that time, it was customary to create finely crafted armillary spheres, including a framework of rings. The spheres were initially centered on Earth until Copernicus's theories changed the Sun to be the center of the Universe and infinite source of light.

Armilla's rings recall this custom; they support and complement the opal glass diffuser with a central light source — just like the spheres dreamt up by the Copernican cosmographers. Armilla's three cleverly crafted metal rings support the glass diffuser and provide the pendant's suspension point.

Our glass masters create Armilla's handblown 14.2 diameter diffuser. Using a round mold, they insert the rings and then blow the glass to secure the rings into place. A burnished, chrome, or gold finish is then applied to the rings to complete each glass. Armilla is designed to work with retrofit LED or fluorescent, or halogen lamps.
