

:Fabbian

Established in the Venetian countryside in 1961, Fabbian is one of the premier Italian lighting manufacturers operating in the modern design market with the design and manufacturing of lighting fixtures for commercial, residential, and custom needs. This rich history, combined with traditional Italian craftsmanship and the finest quality materials, keeps Fabbian a prominent brand internationally recognized in the architectural and design communities worldwide.

Fabbian continues to innovate by continuously researching new materials, finishes, styles, and aesthetics. Fabbian's factory is based in the Veneto region of Italy, and it has access to a vast network of local glass and metal artisans to ensure that the highest quality expectations and safety requirements are met.

FREELINE F44 Flynn Talbot

Designer Flynn Talbot created the Freeline F44 configurable system to illuminate the X, Y, and Z axes.

He removed the limits of choosing a singular plane and enabled the creation of modern, minimal, 3-dimensional light sculptures that also provide functional illumination.

The Freeline Collection includes a highly configurable lighting system and standalone pendants that can be used independently or as part of the system.

Our patent-pending system will provide sculpture, function, and illumination in commercial and select residential projects.

Freeline's design flexibility allows this system to be used in a range of commercial and residential applications.

Systems can be minimal to complex, all with built in flexibility.

Linear Pendant

Freeline F44 Linear Pendants take the central element of the Freeline system, the grooved rod, and turn it into light source.

The LED strip runs the length of the rods and rotates to provide direct or indirect illumination. Easily adjustable clamps suspend the rod.

Offered in two lengths, two finishes and two color temperatures.

Freeline Linear will perform in residential, commercial, retail, and hospitality applications.

Linear Pendant

Low profile linear pendant lamp with anodized aluminum finish. Light fitting adjustable 360 degrees providing direct or indirect illumination. Floating canopy provides mounting flexibility for when junction boxes are not in ideal locations. Offered in two lengths. Optional 0-10V dimming available.

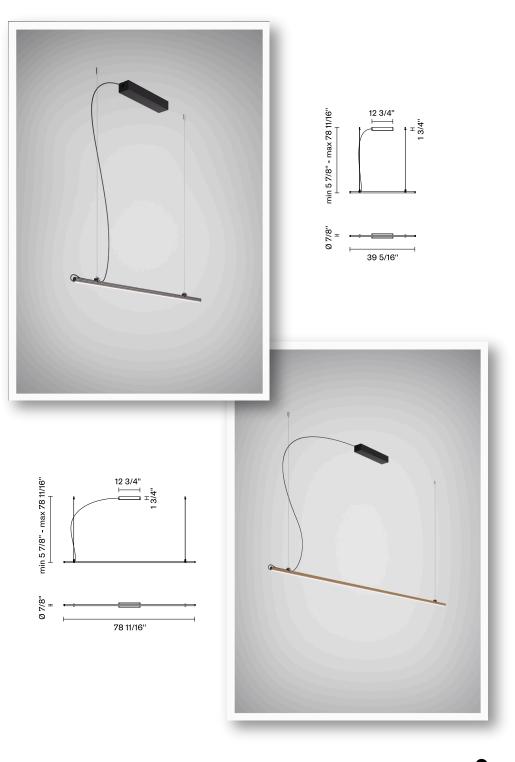

2700K and 3000K standard color temperatures, 3500K and 4000K available upon request.

Lamp Type:

- 3.3': 14.4W 120V/24V 960 lumens 3000K or 2700K >80CRI LED
- 6.7': 28.8W 120V/24V 1920 lumens 3000K or 2700K >80CRI LED

Model Numbers:

F44 A01A 02 - 3.3'/ Black / 3000K F44 A02A 02 - 3.3'/ Black / 2700K F44 A01A 76 - 3.3'/ Bronze / 3000K F44 A02A 76 - 3.3'/ Bronze / 2700K F44 A03A 02 - 6.7'/ Black / 3000K F44 A04A 02 - 6.7'/ Black / 2700K F44 A03A 76 - 6.7'/ Bronze / 3000K F44 A04A 76 - 6.7'/ Bronze / 2700K

Freeline System

Freeline enables creative design - no longer does the lighting need to stay on a singular plane. Create a system that works in 3-dimensions and provides ambient, accent and task illumination.

System Components

Freeline System's base components are:

- Grooved, round rail non-powered or with integral LED strip
- Versatile connectors
- LED machined-aluminum or blown-glass heads.

Rail pieces can be installed vertically, horizontally, diagonally or all three.

Fixtures can be powered remotely, directly or via cord and plug.

System Fixtures

Freeline has three fixture types:

- Floodlight- 6" with 120° beam spread
- Spotlight- 2.25" x 5" with 10° optics included
- Glass Globe- 5.75", hand-blown with sand blasted white finish for diffuse illumination

Light Source:

- LED 24 VDC, Remote Phosphor, 8W
- White 3000K or 2700K, 934 initial lumens Cri >90

Driver:

• Choice of remote drivers including 60W, 96W and select Lutron 24V drivers.

Combine all three fixture types to create a layered lighting installation that solves for accent and ambient needs.

System Fixtures

Spotlight

8W 24Vdc LED 10° beam spread 934 Initial lumens 2700K or 3000K* CRI >90 13' or 32' cord length

Glass Globe

8W 24Vdc LED 120° beam spread 934 Initial lumens 2700K or 3000K CRI >90 13' or 32' cord length

F44 L21A 02 - 3000K /13' cord F44 L23A 02 - 2700K / 13' cord F44 L22A 02 - 3000K / 32' cord F44 L24A 02 - 2700K / 32' cord

Floodlight

8W 24Vdc LED 120° beam spread 934 Initial lumens 2700K or 3000K* CRI >90 13' or 32' cord length

F44 L11A 02 - 3000K /13' cord F44 L13A 02 - 2700K / 13' cord F44 L12A 02 - 3000K / 32' cord F44 L14A 02 - 2700K / 32' cord

System Structure

Freeline F44's track is offered in two forms: with or without an integral LED strip. Both are made from grooved, extruded aluminum.

- 3.3' and 6.7' rods standard
- Offered in anodized black or bronze finish
- Non-illuminated rods can be coupled together or field cut. (Field cut rods cannot be coupled)
- Each rail can hold up to 12 heads.
- Illuminated bars include an LED strip for providing direct or indirect ambient illumination.

Track Cross Section

System Components - Rods

Extruded Rod

Each rod includes 2 threaded end connectors and 4 end caps Can hold up to 12 lights

F44 M11A 02 - 3.3' / Black finish F44 M11A 76 - 3.3' / Bronze finish F44 M12A 02 - 6.7' / Black finish F44 M12A 76 - 6.7' / Bronze finish Extruded Rod- with LED

3.3': 14.4W 24Vdc 3000K or 2700K* 6.7': 28.8W 24Vdc 3000K or 2700K* CRI >90

Each rod includes the LED, Diffuser, wire, 2 end caps Can hold up to 8 lights

F44 M14A 02 - 3.3' / Black finish / 3000K F44 M17A 02 - 3.3' / Black finish / 2700K F44 M14A 76 - 3.3' / Bronze finish / 3000K F44 M17A 76 - 3.3' / Bronze finish / 3000K F44 M15A 02 - 6.7' / Black finish / 3000K F44 M18A 02 - 6.7' / Bronze finish / 3000K F44 M18A 76 - 6.7' / Bronze finish / 3000K

* 3500K and 4000K available upon request

System Components - Fasteners

115/16"

Coupler Brackets

Pack of two connectors. Connect two rods together perpendicular, parallel or somewhere in bewteen

F44 Z02A 02

Ceiling/Wall Attachment

Black aluminum ceiling fastening kit. Attaches rod to the ceiling or wall.

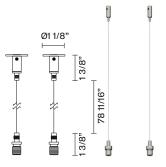

Pendant Kits

F44 Z07A 02

Screw Pendant Kit (pack of 2pcs)

Includes the accessories needed to suspend a rod vertically from the ceiling, includes 2 steel cables (78 11/16") and the ceiling cable connector for each steel cable.

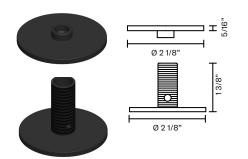

F44 Z09A 02

Single Fastening Joint Pendant Kit (2 pcs)

Includes the accessories needed to suspend a rod from the ceiling, and includes 2 steel cables (78 11/16"), the ceiling cable connector and 1 fastening joint for each steel cable.

F44 Z05A 02

Floor Lamp Kit

Black aluminum. Includes the accessories needed to install the rod in a floor-to-ceiling vertical position.

F44 Z11A 02

Double Fastening Joint Pendant Kit (2pcs)

Includes the accessories needed to suspend a rod from another rod, and includes 2 steel cables (78 11/16") and 2 fastening joints for each cable.

System Components - Power

A55208 60W 24VDC Triac-Dim Driver Fits in 4x4 box and covered by F32M91A02 Black J-Box Coverplate

Accessories

F44 M02A 02

Structure-Mount Class-2 Wiring Connection Point (up to 7 fixtures) Use to gather multiple fixture wires

96W 24V Lutron Hi-Lume Premiere 120-277V (UNV) 24V Constant Voltage 3-Wire Soft-on, Fade-to-Black operation Continuous dimming down to 0.1% low-end

F32M91 A02 Black J-Box Coverplate

Run 1wire from F44M02A02 Module through cover plate to driver

Installation Details

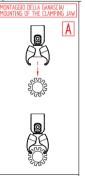

Floor mount hardware kit F44 Z05

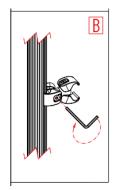

Freeline Hanging Kit F44 Z07

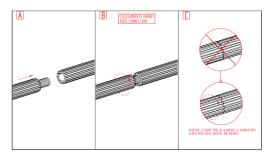

Installation and Wiring Details

Fixture Mounting

Coupler Mounting

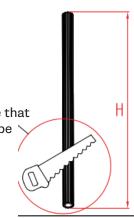

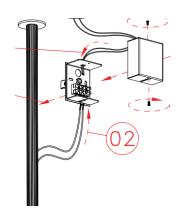

Rods are threaded on each end when shipped and include (4) end-caps and interlock coupler.

Threaded end required for floor/wall/ceiling or interlocking rods.

If cutting, note that inside will not be threaded.

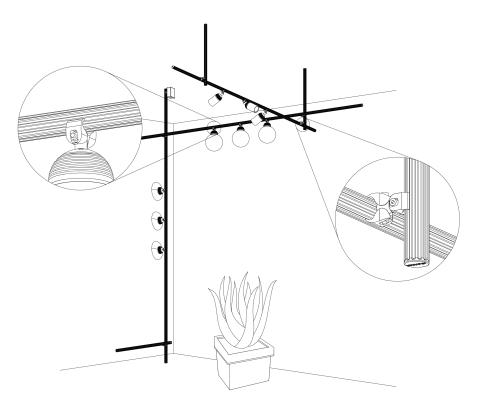

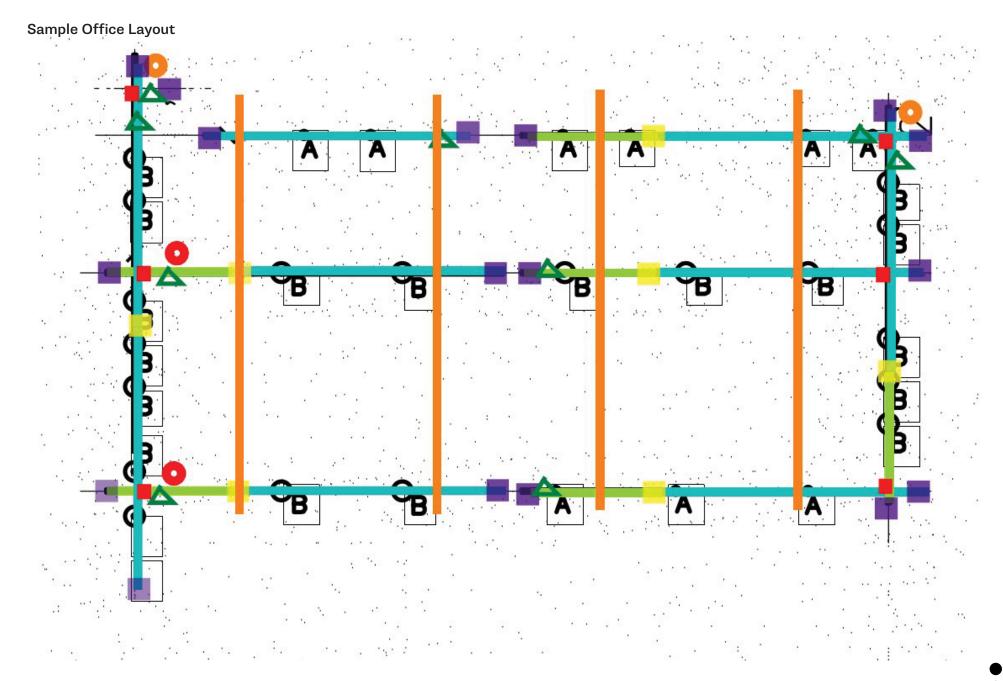

Connection Box

Up to 7 fixture wires gather in this enclosure. Only 1 wire goes to ceiling/wall-mounted J-box and driver.

Create a Freeline System

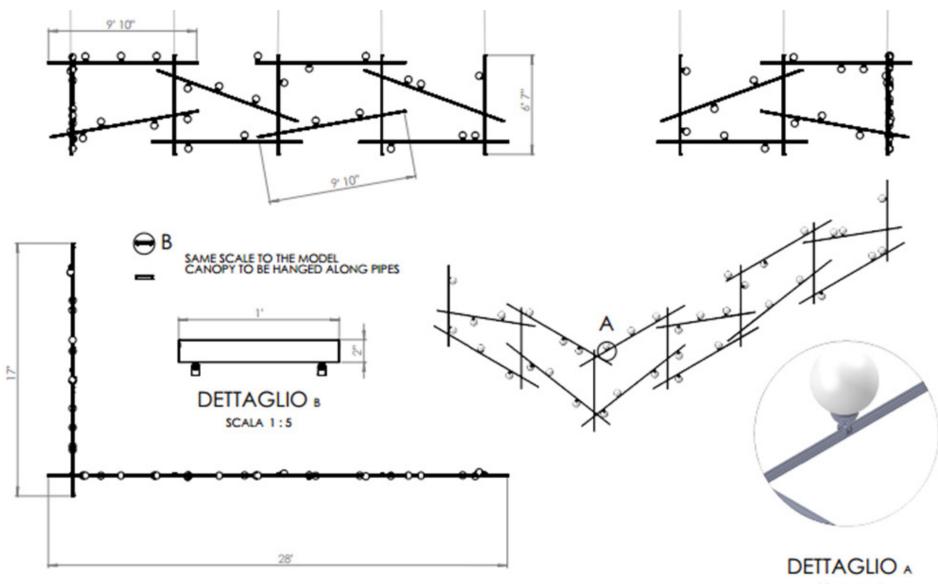

- 1. Design your structure layout
- Using 3.3' and 6.7' rods, create the design
- Couple rods together where needed for longer lengths
- 2. Determine the Connectors needed
- Count connection points to wall/ceiling
- Count connection points where structures intersect
- 3. Determine fixtures needed
- Floodlight
- Spotlight
- Glass Globe
- 4. Select your power details:
- 60W Driver with plug-in power cord on Structure
- 60W Driver to go in square J-box in ceiling / wall with class 2 connection point on structure
- Note (1) 60W Driver per 7 fixtures max
