Notes

Driver selection will determine input voltage and dimming capabilities.

Description

The five-foot 24V pendant component of the Beluga Custom series- features a crystal glass globe with a frosted glass interior to diffuse the integral LED light source. 24V offers simplified wiring and greater dimming control. 24V models can be dimmed to 0.5% dimming with the appropriate driver (sold separately) and used with Lutron, EldoLED, and other High-performance drivers as part of a dimming control system.

Voltage

24V
