Options

277 Volt
RAL and Pantone colors available

Description

35 3/8" Lens was conceived as a way to capture, filter, and reintroduce light into a space in a renewed form. The irregular cut outs on the lens surfaces diffuses the light, casting a dynamic interplay of light and shadow onto the surfaces below. As these subtle tonal shifts bathe the surroundings, the environment merges with the light reflected off of the lens themselves, creating a harmonious decorative effect. Each lens goes through up to 25 steps to reach its desired finish including oxidation process inducted by flame, brushing, sponging, polishing and sanding. No two Lens shades will be exactly the same.

Dimmable

0-10V

Specs

Light source and Technical

Lamp type: LED 1x26W
Color temperature: 3000K
CRI: >92
