Company profile

Company overview

Established in 1961 in the Venetian countryside, Fabbian has always been one of the main points of reference in the decorative lighting appliances' market segment, with products mostly designed and manufactured for private residences and contract works. This aspect, together with the highest Italian craftsmanship tradition and the finest quality, has always been internationally recognized by architects as well as by the interior and lighting design communities worldwide.

Research & Development

The endless research on new materials, trends, and aesthetics has always been combined with market demands and new business opportunities. From the very beginning to the design application, the product life cycle is strictly controlled to make sure that each light fixture meets the highest quality expectations and safety requirements. These components give Fabbian products a vast and diversified array of inspirations and styles, which is also ensured by yearly prestigious collaborations with well-renowned and emerging designers.

Company structure

Proudly headquartered in Castelmilino di Resana, in the **Venetian Countryside**, the company has an international outreach. From **Venice**, it manages directly the European region, while it distributes the products through agents or importers in the other macro-geographical areas (Greater China, Russia, South and East Asia, South America, GCC countries, Northern Africa).

North America

For the North America market, Fabbian USA recently opened a new office in the world's capital of design, **New York City**, just blocks from Time Square, after 17 years in other locations.

Designers

Fabbian has collaborated with some of the most prestigious designers throughout the world to create unique elements for your home and business.

Trade Shows & Events

Fabbian takes part in the world's most relevant trade show dedicated to light, Euroluca, in Milan, every two years, with a massive booth to showcase new collections and best seller products. Other important dates in the Fabbian's calendar are Stockholm Furniture & Light Fair, WantedDesign Manhattan, and Sleep London.
