

LÀMPARA F69

RSVP/design

Glass has always been the essence of Fabbian, and the Lámpara collection aims to enhance its value, beauty, and authenticity. Blown glass, in particular, results from an artisan process that makes each piece different, even if only in minor details: a diversity that makes each lamp unique and exclusive. Fundamentally, Lámpara is a small-scale work of art that can add a touch of originality and elegance to any space.

Lámpara is a range of one-dimensional table lamps that provide ambient illumination and a design element for residential, retail, corporate, and hospitality applications. Made from hand-blown glass that master glassmakers flatten and form, the diffuser is fixed to the black anodized aluminum base at three points to provide stability. The base houses a high-efficiency dimmable LED light source.
